

# Chatbot Workshop

## — Watson IoT —

In this technical hands-on workshop you will learn how to build your first chatbot and then integrate it with Slack. In this session you will learn and build:

- How to train your chatbot to reply to questions using intents, entities, dialogue
- How to customize your chatbot to reply to more questions
- How to integrate your chatbot with Slack using OpenWhisk

The chatbot will be built using Watson Conversation.

This is not your typical meetup, this is a technical hands-on workshop where you will learn how to build your first chatbot. This workshop is free but please register to reserve your space now.

**Schedule : Wednesday, Nov. 15, 2017**

6:00-6:30pm: Light dinner and registration 6:30-8:30pm: Build your first chatbot workshop

### Requirements

No experience is necessary, however an idea for your chatbot might come in handy. Please bring a laptop and power cable, as this is a hands-on workshop.
